

Translon Symposium 2026

Translated regions of RNA: from ribosomes to proteome diversity

 29–30 June 2026

 University of Oslo, IBV

Programme Breakdown

Monday, 29 June

8:30-9:15	Registration and opening Arrival, welcome, and opening remarks
9:15-10:30	Session 1: Regulation & Architecture Chair: Eivind Valen; keynote by Pavel Baranov
10:30-11:00	Coffee break Morning interval within Session 1
11:00-12:30	Session 1 continued Regulation & Architecture talks
12:30-14:15	Lunch break Midday break
14:15-15:30	Session 2: Ribosome & Outputs Chair: Pavel Baranov; keynote by Tomasz Włodarski
15:30-16:00	Coffee break Afternoon interval within Session 2
16:00-17:30	Session 2 continued Ribosome & Outputs talks
18:00	Dinner Barcode Street Food

Tuesday, 30 June

9:00-9:15	Welcome and opening remarks Chair: Rein Aasland
9:15-10:30	Session 3: Annotation & Resources Keynote by Jon Mudge; genome annotation talk
10:30-11:00	Coffee break Morning interval within Session 3
11:00-12:15	Session 3 continued Resources, translation signals, and CRISPR tools
12:15-12:45	Roundtable and closing remarks Discussion and wrap-up
12:45-13:30	Lunch break Final lunch interval
After lunch	Walk in Vigelandsparken With international guests

At the Molecular Crossroads

SESSION 1

Regulation & Architecture

KEYNOTE

Pavel Baranov

University College Cork, Cork, Ireland

**Enigmatic Translons -
Animalcules of Molecular
Biology?**

SESSION 2

Ribosome & Outputs

KEYNOTE

Tomasz Włodarski

Institute of Biochemistry and Biophysics,
Warsaw, Poland

**Co-translational protein folding
in the light of ribosome evolution**

SESSION 3

Annotation & Resources

KEYNOTE

Jon Mudge

Institute of Cancer Research, London, UK

**Peptideins and the hidden
coding landscape of the 5' UTR**
