

Translon Symposium 2026

At the Molecular Crossroads

29-30 June 2026 | University of Oslo, Department of Biosciences | Kristine Bonnevis hus, Oslo, Norway

Monday, 29 June

8:30 - 9:00	Registration
9:00 - 9:15	Welcome and opening remarks
9:15 - 12:30	Session 1: Regulation & Architecture
9:15 - 10:00	Keynote Lecture: Pavel Baranov Enigmatic Translons - Animalcules of Molecular Biology?
10:00 - 10:30	Beáta Grallert From Stress Responses to Translation Regulation: Notes from the Outskirts
10:30 - 11:00	Coffee break
11:00 - 11:30	Martina Yordanova An evolutionary conserved translon mediates start site selection in BAG1 mRNA.
11:30 - 12:00	Thomas Birkballe Hansen Virtual talk TBA
12:00 - 12:25	Wiktoria Orzeł Uncovering a cellular mechanism that enhances mRNA vaccines
12:25 - 12:45	Maria Božko Novel +1 frameshift signals and context-dependent enhancers in yeast
12:45 - 14:30	Lunch break
14:30 - 17:30	Session 2: Ribosome & Outputs
14:30 - 15:00	Tomasz Włodarski Co-translational protein folding in the light of ribosome evolution
15:00 - 15:20	Joanna Kufel Non-canonical translation events in the yeast <i>Saccharomyces cerevisiae</i>
15:20 - 15:40	Michał Marcinkowski Isoforms of mitochondrially-localized Lsm proteins affect the respiratory capacity of <i>Saccharomyces cerevisiae</i> cells
15:40 - 16:00	Evdokiia Potolitsyna Cellular energy levels tune nucleolar phase separation to regulate ribosome biogenesis
16:00 - 16:30	Coffee break
16:30 - 17:30	Talks TBA
Evening	Dinner downtown

Translon Symposium 2026

Programme

Tuesday, 30 June

9:00 - 9:15	Welcome and opening remarks
9:15 - 12:30	Session 3: Annotation & Resources
9:15 - 10:00	Keynote Lecture: Jon Mudge Peptideins: a new annotation category for the dark proteome
10:00 - 10:30	Talks TBA
10:30 - 11:00	Coffee break
11:00 - 11:30	Jack Tierney Representing Translation Within Genome Annotation
11:30 - 11:45	Harsh Chhajer Recovering Hidden Translation Signals from Noisy Ribosome Profiling Data
11:45 - 12:00	Kyle Meiklejohn Representing the Dynamics of Translation with Dynamic RDGs
12:00 - 12:15	Kornel Labun Practical tools for genome engineering with CRISPR
12:15 - 12:45	Roundtable discussion and closing remarks
12:45 - 13:30	Lunch break
After lunch	City walk
